

## We are starting a JavaScript Internship in Vention!

Vention the global leader in custom software development, is excited to announce an individual JavaScript internship in Warsaw. We offer you the chance to gain practical experience and a high likelihood of receiving a job offer and joining our team of 3000 engineers.

Here you can find the key requirements

- ✓ Learn JavaScript, TypeScript, and common design patterns
- ✓ Develop dynamic web applications using frameworks like React, Angular, or Vue.js
- ✓ Work with back-end APIs for data integration on the front-end
- ✓ Use state management libraries such as Redux for React
- ✓ Contribute to server-side logic using Node.js and Express.js
- ✓ Write unit tests with frameworks like Jest and participate in integration testing

### Qualifications

- ✓ Proficiency in HTML, CSS, and JavaScript fundamentals
- ✓ Familiarity with a JavaScript framework like React, Angular, or Vue
- ✓ Understanding of Object-Oriented Programming (OOP) principles
- ✓ Basic knowledge of Node.js and TypeScript
- ✓ Experience with Git Version Control System
- ✓ English proficiency at B1 level or higher
- ✓ Commitment to dedicate 6 hours a day to study and development

As for the benefits, we certainly have something tempting for you: a unique individual approach and guidance from a personal mentor; the chance to gain experience similar to real projects and dive deep into the internal processes of a large international IT company.

Don't miss out on this amazing opportunity to jumpstart your career!
